IN THE MATTER OF:)	
)	
Inland Empire Utilities Agency)	Complaint No. R8-2006-0068
6075 Kimball Avenue)	for
Chino, California 91710)	Mandatory Penalties

YOU ARE HEREBY GIVEN NOTICE THAT:

1. Inland Empire Utilities Agency (IEUA) is alleged to have violated provisions of law for which the California Regional Water Quality Control Board (Regional Board), Santa Ana Region, must impose mandatory penalties pursuant to California Water Code (Water Code) Section 13385.
2. A hearing concerning this complaint will be held before the Regional Board within 90 days of the date of issuance of this complaint, unless IEUA waives its right to a hearing. Waiver procedures are specified on Page 2 of this complaint. If the hearing in this matter is not waived, the hearing will be held during the Regional Board's regular meeting on February 2, 2007 in the Council Chambers of the City of Loma Linda, 25541 Barton Road, Loma Linda, California. The meeting will begin at 9:00 a.m. IEUA or its representatives will have an opportunity to appear and be heard and to contest the allegations in this complaint and the imposition of mandatory penalties by the Regional Board.
3. This complaint is based on the following facts:
 - a. On July 1, 2003, the Regional Board adopted Waste Discharge Requirements (WDRs) Order No. R8-2003-0003 (NPDES No. CA8000402), for IEUA. These requirements regulate discharges of waste from IEUA's Regional Plant No. 5 (RP-5).
 - b. IEUA submitted self-monitoring reports (January 2004 – July 2006) from RP-5, which show that IEUA exceeded the effluent limits for chlorine residual four times. On January 4, 2005 and January 9, 2005, IEUA exceeded the 0.1 mg/L effluent chlorine residual limit for more than 5 minutes. Also, on January 4, 2005 and January 9, 2005, IEUA exceeded the 5.0 mg/L effluent chlorine residual instantaneous maximum limit.
4. Water Code Section 13385 (h) and (i) requires the Regional Board to assess a mandatory minimum penalty of three thousand dollars (\$3,000) for each serious and non-serious violation, not counting up to three non-serious violations of the first three violations in each six-month period. Two of the four violations described in paragraph 3b are considered serious as defined under Water Code Section 13385 (h) (2).

5. As cited in paragraph 3b, IEUA incurred a total of four violations between January 2004 and July 2006. For the thirty-one-month period covered by Complaint No. R8-2006-0068, two non-serious violations that occurred between January 2005 and June 2005 are not subject to mandatory penalty assessments.
6. Two serious violations out of the total of four violations are subject to mandatory minimum penalties of \$3,000 for each violation. In accordance with Water Code Section 13385 (h) and (i), the mandatory minimum penalties for the two effluent limit violations cited in paragraph 3b are \$6,000.
7. In accordance with Water Code Section 13385(c), the Regional Board may impose administrative civil liability for the four violations cited in paragraph 3b. The estimated maximum administrative civil liability which may be imposed for these violations is \$20,000 (\$10,000 per day of violation), plus an additional assessment of \$10 per gallon of effluent discharged during the duration of the violation episode, in excess of the first 1000 gallons of effluent.
8. The Assistant Executive Officer proposes that mandatory penalties of \$6,000 be imposed on IEUA by the Regional Board for the violations cited in paragraph 3b.
9. You may waive your right to a hearing. If you waive your right to a hearing, please sign the attached waiver, which is Page 3 of this complaint, and return it together with a check payable to the State Water Resources Control Board in the amount of the mandatory penalties proposed in paragraph 8, above. Send the check and waiver to:
